## PROFESSIONAL SUMMARY

Detail-oriented and results-driven Fullstack Frontend Developer with expertise in building modern, scalable, and accessible web applications. Proficient in **JavaScript** and **TypeScript**, with strong frontend skills using **React**, **Tailwind CSS**, and **Apollo Client** to create responsive and intuitive user interfaces. Experienced in API development, including both **REST** and **GraphQL**, using **Node.js**, **Express**, **Apollo Server**, and **Golang**. Skilled in working with databases like **MongoDB** and **Firebase**, and deploying applications using serverless and cloud-based platforms. Passionate about writing clean, maintainable code and delivering high-quality user experiences in collaborative, agile environments.

## Relevant Experience

Fullstack Frontend Developer, **Webcrunchy**    March 2021 – July 2024

- Designed and developed responsive web applications using **React**, **TypeScript**, and **Tailwind CSS**, ensuring consistent performance across all modern browsers and devices.
- Built and maintained feature-rich eCommerce websites, including **Shopify development**, focusing on user experience, mobile optimization, and conversion-driven layouts.
- Developed and integrated **GraphQL APIs using Apollo Client and Server**, enabling efficient data fetching
- Collaborated on cross-functional teams alongside designers and backend developers to deliver fully customized websites and mobile-friendly applications tailored to client goals.
- Connected frontend applications to scalable backends using **Node.js**, **Express**, **Firebase**, and **MongoDB**, ensuring smooth data flow and secure authentication workflows.

## Selected Projects

### Intellex

Intellex is an AI-powered search assistant built with TypeScript, React.js, Tailwind CSS, Tavily API, and Firebase, designed to deliver contextual answers and intelligent follow-ups through an interactive, conversation-like experience.

### Medicia

Medicia is a dental care platform built with TypeScript, React.js, Tailwind CSS, and tailwind-css-animated, designed to streamline and modernize patient and practitioner experiences.

### Ariadeco

AriaDeco is a bespoke event décor platform built with JavaScript, React.js, Tailwind CSS, and tailwind-css-animated. It creates custom backdrops and elegant décor for photoshoots, birthdays, ceremonies, and corporate events—transforming spaces to set the perfect ambiance for every celebration.

## SKILLS

### Programming Languages

TypeScript, Golang, JavaScript & GraphQL

### Libraries & Frameworks

React, NextJs, TailwindCSS, Apollo-Client, React-query, Redux / Redux Toolkit & Framer Motion

### Tools & Backend

MongoDB, NodeJS, NextJS , Git, Github , API development, Firebase, Supabase, tRPC, GraphQL, Vercel, Heroku, Render, Netlify & Figma

## Education

### Fullstack Academy

Completed a full-stack web development program, gaining skills in JavaScript, TypeScript, React, Node.js, GraphQL, MongoDB, Golang, Firebase, and Tailwind CSS.

## Interests

Open Source Contribution, Basketball  
Fitness & Wellness
